FAA-Certified Remote Pilot in Command with two years of experience operating both cinematography and industrial drones. Proficient in capturing visually pleasing aerial footage using DJI drones and other drone manufacturers. Skilled in piloting industrial grade drones like Lucid Bots' Sherpa and Apellix B1 for commercial use. Experienced in real-time problem solving, clear communication, and maintaining adherence to FAA flight regulations to ensure safe, efficient, and effective operations on every project.

Professional Experience

SprayTech LLC, Torrance, CA

Certified Remote Drone Pilot | October 2024 - January 2025

- Operated drones to execute precision power washing on high-rise buildings and various facades.
- Responsible for preflight drone inspections, having charged batteries and remote controllers on standby, and securing sufficient RTK connection before every flight.
- Troubleshooted maintenance issues on site.
- Played a key role in worksite setup and teardown while keeping safety protocols in mind.

House of Motorrad, Boulder, CO

Head Motorcycle Mechanic | September 2021 - August 2024

- Diagnosed and repaired complex electrical and mechanical issues, conducted insurance inspections, built custom quotes, and oversaw fleet maintenance and rentals.
- Led customer interactions, managed repair timelines, and handled invoicing creation and payment processing.
- Onboarded and mentored new employees.

Amazon Delivery, San Francisco, CA

Lead Delivery Driver & Dispatcher | July 2020 - August 2021

- Delivered 270–330 packages daily across the San Francisco Bay Area.
- Quickly promoted to Lead Driver, completing routes ahead of schedule, assisting other drivers to complete their routes on time, and trained new employees on the road.
- Later promoted to Dispatcher, overseeing a team of 20+ drivers, assigning routes, troubleshooting issues for delivery drivers as they arise, and ensuring timely deliveries.

Professional Development

The University of Colorado at Boulder | August 2018 - May 2020

- **Major:** Psychology | **Minor:** Philosophy
- Developed strong critical thinking and a greater understanding of human behavior, improving communication, teamwork, and decision-making, all critical to drone operation.

Skills and Attributes

- Advanced in Adobe Premiere Pro, Adobe Photoshop, and Adobe Illustrator.
- Familiar with Measure Ground Control for drone mapping.
- Consistently completes projects on time and meets deadlines for client satisfaction.
- Quick to listen, absorb feedback, and apply new information.
- Effective in conveying ideas and thoughts to team members for smooth operations.
- Creative problem solver, addressing issues on the spot.

Interests

Creating films, photography, wrenching on motorcycles, producing music, and playing ultimate frisbee.
